

RC814 Brush Chipper

www.raycomfg.com

You don't have to sacrifice **performance** because you're using a **compact chipper!**

RC814 in Action

RAYCO's RC814 is a compact, 8" capacity chipper that delivers top-notch performance while going easy on the pocketbook. It's equipped with VersaFeed® automatic feed control and a 44 hp Kubota diesel engine that meets Interim Tier IV / Stage IIIA emissions standards. The RC814 features a Torflex axle allowing it to tow smoothly, even behind compact pickups. And you don't have to sacrifice performance because you're using a compact chipper. The RC814 is the only machine in its class to feature hydraulic feed wheel lift and crush and it tackles the tough jobs with an 8"x14" infeed opening and plenty of feeding power. Stubborn material is no match for the powerful 9-1/4" diameter upper feed wheel. A dual feed wheel system is optional for operators who require extra muscle.

Think Smart, Think Safe.....

We care about your safety. When operating your RAYCO machinery always wear an approved helmet complete with ear muffs, face shield and the proper eyewear. Never operate under the influence of alcohol or drugs. Know your RAYCO, read and understand your owner's manual cover to cover.
