Process Materials Easier & Faster

Powerful 240 hp Cummins 6.7 L Diesel Engine

Our customers asked for a horizontal grinder that makes processing materials such as wood chips, lumber scraps, pallets, logging slash and green waste easier and faster than ever... without breaking the bank. RAYCO listened, and the RH1754-240 was born. It boasts a powerful 240 hp Cummins 6.7 L diesel engine, a longer discharge conveyor, and other enhancements to maximize throughput while keeping operating costs at a minimum. Pile chips higher, or fill open-top trailers, with a discharge conveyor that reaches over 12 feet high. Screens can be changed in minutes allowing the operator to size product to his exact specifications. Variable speed control on both infeed and discharge conveyors can be tailored to virtually any grinding application. And best of all, it's priced thousands less than the competition.

Think Smart, Think Safe.....
