

Horizontal Grinder Tooth Options

Brazed-On Carbide with 2-sided KenCoat™
- Part # 801325

- Good for grinding clean material
- Increased productivity on logs and heavy brush
- Coated overlay application technology along sides
- Premium-quality macrocrystalline tungsten carbide inserts brazed onto an all-steel body stay securely in place
- Consistent performance and long tool life in low-impact grinding applications
- 2 cutting edges

Planer Tooth
- Part # 801186

- Good for grinding clean material only
- Fewer fines
- Faster drum recovery
- More efficient cut
- 2 cutting edges
- Tool grade steel

KenCoat™ Kennametal Carbide
- Part # 800951

- Superior, long-lasting results, ideal for high-impact applications
- Coated overlay application technology
- Provides up to 30 percent greater wear life vs. competitive embedded-style tips
- Embeds wear-resistant carbide granules in a tough, abrasion-resistant steel-weld material
- Holds original shape longer
- Economical replacement cost
- 2 cutting edges
