RAYCO
BY MORBARK

The **Super Jr** stump cutter is the original self-propelled, backyard stump cutter that professionals have relied on since 1986. Today, there's a Super Jr model to fit every job and every budget. To maximize visibility while cutting, all Super Jr's have the drivetrain located on the far side of the cutter wheel. And Rayco's exclusive, swing-out control station gives operators the best view while cutting and swings in-line with the machine for travel through gates. Wide, flotation tires with bar tread give the Super Jr a firm grip on the terrain, and dual wheels can be added for extra stability. Rayco's exclusive slewing ring pivot design lowers the center of gravity and lets the Super Jr cut at maximum depth across the whole swing path.

MADE FOR MORE TO KEEP PACE WITH YOU

RG37 SUPER Jr

FEATURES AND BENEFITS

- Slewing ring pivot design increases cutting width
- Full cutting depth across entire width of cut
- Lower center of gravity
- Wide tires for enhanced traction and flotation
- Swing-out operator station
- Controls swing in line for travel through gates
- Gasoline engines with heavy duty air filter
- 37-hp Vanguard engine
- Centrifugal precleaner
- Hydraulic backfill blade
- Two speed ground travel
- Optional dual rear wheels & Command Cut
